ITALY'S MOST ICONIC SPARKLING WINE

National Prosecco Day is celebrated on August 13th, and at Bristol Farms, we're spotlighting this beloved sparkling wine all month long. Prosecco's roots trace back to northeastern Italy, where it has been crafted for generations in the hills of Veneto. Made primarily from the Glera grape, it typically boasts bright flavors of green apple, pear, citrus, and white peach.

Prosecco pairs beautifully with warm-weather gatherings, outdoor brunches, backyard celebrations, and leisurely evenings on the patio. From chilled seafood and light salads to charcuterie and fresh fruit platters, Prosecco complements a variety of seasonal flavors. While many are familiar with traditional Prosecco, Rosé varietals have become an exciting addition to the category, offering delicate notes of strawberry, raspberry, and rose petals.

Whether you prefer a classic bottling or a vibrant Rosé rendition, both capture the easygoing essence of summer. National Prosecco Day may last just 24 hours, but this sparkling wine is worth sipping all year long!
